Home Care Packages

What is a Home Care Package?

A Home Care Package supports you with day to day care while living at home and is designed to meet your specific needs. As an Approved Aged Care Provider we will manage your package and individual budget, while helping with your goal of maintaining your independence.

To achieve this, we use a partnership approach. We establish this by working together with you and your family to ensure you have the right care and choice of support for you to continue to live at home.

Check your eligibility

Home Care Packages are for older people living at home. You will need to register with My Aged Care by calling 1800 200 422

What will it cost me?

The cost you will pay depends upon your personal situation and if you are on a full pension. A basic fee is set by the Australian Government.

There are also subsidies which may apply to your CHNC Home Care Package. We will discuss the fees and charges with you during the assessment.

There are four levels of Home Care Packages to meet your needs.

- Level 1 basic care needs
- Level 2 low level care needs
- Level 3 intermediate care needs
- Level 4 high care needs

Contact our office on the number below to discuss your home care options.
